Ø 7.0" - 21.5"

Industrial touch display series with PCAP multitouch screen

Features

- 7.0" ~ 21.5" display sizes available
- *Resolution up to 1920 x 1080*
- Brightness up to 400 cd/m²
- PCAP multitouch screen
- HDMI, VGA and DVI ports

Sturdiness and flexibility for industrial fields of application

The industrial Parrot PM (Panelmount) display series offers a wide range of functionality and is also suitable for use in harsh environments. In addition to its sturdiness, due to the IP65 front, it shows an impressive reliability and a special panel mount design, which offers appropriate flexibility for different fields of application. The PCAP multitouch screen ensures the best usability.

Razor-sharp PCAP multitouch display up to 21.5" screen diagonal

The screen size for the panel mount displays ranges from 7 inches to 21.5 inches, with an aspect ratio of 16:9 or 4:3, with a maximum resolution of 1920 x 1080 pixels. In addition, a viewing angle of up to 176 degrees vertically and 180 degrees horizontally ensures good readability from a wide variety of perspectives. For the connection of external devices, the displays are equipped with a VGA and HDMI interface (with an option for adding DVI).
